*Re : Molson Centre
Refrigeration system for the skating rink*

To whom it may concern :

In regards to the involvement of your company in the construction of the above reference project, we would like to express our appreciation of the professionalism you demonstrated during all the phases of the construction.

Despite the complexity of the job site conditions and the particular requirements of the refrigeration system, the personal in charge and the workers of your company delivered an installation of very high quality, reliable and easy to operate and maintain, while respecting the construction schedule.

We were very pleased to work with Cimco, and we are recommending your services without hesitation to anyone that may need them.

Sincerely,

Centre Molson
1260, rue de La Cauchetière Ouest
Montréal (Québec)
