To Whom it May Concern:

I have been using Cimco Refrigeration for ammonia service work at the W.J. Henderson arena in Loyalist Township for years now. I have always appreciated the mechanics employed by Cimco Refrigeration. They are quick in their response time to service calls and fix problems correctly the first time.

Cimco has also been a great help in capital asset management for me. We have worked together to come up with maintenance plans and budgets for replacement of major equipment in the facility.

Cimco has brought a lot of newer technology to our facility. With our early July start-up Cimco recommended installing a desiccant dehumidifier to combat humidity issues in the facility. The new dehumidifier has been exceeding our expectations. We also use a Cimco automation system to run our refrigeration plant. We are now better able to control our plant ensuring great product for our customers while cutting energy consumption.

I would be comfortable recommending Cimco Refrigeration to anyone.
