Hi Dave,

I been thinking about the timely service we have been receiving from CIMCO, with the overhaul of two compressors in the last year, and one more in your shop to be overhauled, as I'm sending this, that a well deserved thank-you is called for.

You guys go the extra step to arrange delivery or in finding parts that are hard to get. Much appreciated Dave. Not all companies are pleasant to deal with, like you guys. Just to let you know it's a pleasure doing business.

**Thanks,**
