

Mr. Marc Malenfant

Toromont Cimco  
9001, de l'Innovation  
Anjou, (Québec)  
H1J 2X9

Dear Marc,

It's now eight (8) years that our facilities are in full operation and frankly I have only good words to say about the draft design, the Ammonia Screw Compressors viability and your maintenance people. Your employees knowledge is really beyond what competition can provide around Montreal.

Despite our facility is now eight (8) years old, it is still recognized as one of the most efficient and well designed machinery in this country, thanks to the Frick RWb Double Intake (Side Port) to reduce energy cost. It's not even coming from me, I had a visitor from S.N.C. Lavallin who was well impressed by the efficiency of the general design.

Here, we have eight (8) million dollars worth of Nestle Ice Cream, the best way to keep it frozen is to get Cimco to look at it...

Yours truly,

Normand Langlois  
Manager  
Thomson Terminals Group
